Converted this single seat E-LSA aircraft to a two seat configuration. Rear seat and rear seat belt/harness assembly, purchased from cubcrafters were installed IAW instructions supplied in CC11-160 POH supplement, except that para 9.2.2.2 is not applicable to experimental category aircraft. this is a minor alteration as defined by Far 1:1; far 21.93(a) and far 43 appendix A. no phase one flight testing is required as per far 91:319(b) and the aircraft is hereby returned to service as authorized by Far 91:407(c) the weight and balance and equipment list have been revised to reflect this addition, and the weight and balance limitations remained unchanged. Operation of this aircraft with two people may exceed the limitations of the aircraft. Weight limitations for the aircraft are listed with in the pilot operating handbook.
